

10+2 - also known as ISF or Importer Security Filing will affect all United States importers. The program rolls out on January 26, 2009 and every importer is expected to begin participating on or shortly after that date. Full compliance is mandatory by January 26, 2010. This program will require that the majority of imports are registered with CBP (U.S. Customs and Border Protection Service) no later than 24 hours prior to loading on board a vessel overseas.
